Please come out of the airport and after 250m the main road bears to the left, follow this road to the end. At the stop sign and the T-junction, please turn right and follow that road for approximately 5 km, then you will see a sign for SOUDA.

You should take the left fork here and drive along the edge of the mountain; you will see the bay of Souda on your left and the ferries in dock. Please carry on this winding road till you see a kiosk on your left hand side and a crossroads 20m further, go straight till you reach a set of traffic lights.

Turn right at the lights and follow this for 350m, move to your left and turn left when you see the sign for the national highway, go for approximately 450m and you will see the highway bridge in front of you. Please take the exit, here sign posted "Rethymno" and join the national highway to the east.

Driving for about 12.5 km on the national highway, you will reach the main exit to Kalyves village. Please turn right and follow this exit. A few meters after (at the 1st T-junction that you will meet) please turn left passing under the bridge and keep driving towards the center of the village.

After about 1 km (at the end of this road), you should turn right and 130m more please turn right again driving towards the villages of Tsivares and Vamos. About 500m after you enter the village of Vamos, (at this point there is also a little square-parking), you should turn left following the signs to Kefalas village. Driving on the road to Kefalas village, after about 1.3 km you will meet a smaller road on your right hand side that leads to Litsarda village.

You should turn right and follow this road up to its end. When you enter the village of Litsarda (about 1 km away from the previous right turn), you will find a T-junction where you have to turn right. (Please note that when you enter the village, you will pass the school and a church!)

According to the map below, you have to keep going for 150m more and then turn left. Finally, you will meet "Villa Litsarda" on your left hand side, 150m farther.

*Please note that if you know the exact arrival time at the villa, please let us know it in order to inform the owner and wait for you. Otherwise, there is an outdoor safe box with number "3510", on the left side of the entrance, next to the electric power meters, where you can find the key of the villa.
